

CTM 3600 print/apply w/ 36" long tamp Perfect for shipping label applications

Improving productivity! QLC integrated these printer applicators into a hand apply process. Our customer increase productivity 150% using automation. The system scans a bar code, retrieves data from the host server and then prints and applies the label to the top of the carton. After successful application the carton travels down the conveyor and right into the truck! Cartons ranged in size from 6" tall to 30" tall

MICROSCAN

QLC specializes in the sales, service and parts support for pressure sensitive labeling equipment. QLC also offers in house contract labeling services for all projects big and small. As an added benefit QLC can rent you a labeling system for short or long term.
