

# 9330 - Specifications

## Print features

- Mono-jet printhead
- G head (printing resolution: 71 dpi)
- Up to 4 lines of print
- Print speed: up to 4.4 m/s
- Maximum speed (7 dot high characters):
  - 0.60 m/s (0.36 mm drop pitch for 4 lines)
  - 1.01 m/s (0.36 mm drop pitch for 3 lines)
- Font height from 5 to 24 dots
- Character height: from 1.8 to 8.6 mm
- Wide choice of characters (Latin, Arabic, Cyrillic, Greek, Japanese, Chinese, Hebrew, Korean...)

## Operations

- Message library (up to 1000 messages)
- International operator/machine interface (choice of 31 languages)
- Color touch screen
- Maximum number of characters per second: 2083
- On-screen output: on/off, consumable level indication, current print counter
- On-screen help and maintenance information
- Programmable shut down
- 2 sealed intelligent cartridges, 0.75 liter each
- Quick connect/disconnect of accessories (photocell, encoder, alarm, I/O)
- Connectivity: Ethernet / RS-232

## Other characteristics

- Weight: 18.5 kg
- 3-meter flexible umbilical cable
- Stainless steel cabinet
- Dust/humidity protection rating: IP55
- No plant air required
- Operating temperature range: 5° to 40° C, depending on ink used
- Humidity: 0% to 90% non-condensing
- Electrical power supply: 100 - 120 V or 200 - 240 V with automatic switching; frequency 50/60 Hz; power 34 W

## Accessories

- Printer supports: stands (stainless steel or aluminum), table or wall mounting bracket
- Photocell
- Encoder
- Alarm beacon (24 V)

## Options

- Printhead pressurization kit (plant air required)
- Autonomous pressurization kit (no plant air required)

Starting, or growing, a business are crucial moments in the life of a company. Changes in production type, rate and even packaging can make things logistically challenging.

The 9330 supports you from your very first line and adapts as production scales up. A trustworthy partner as your needs change, it provides the best, most reliable marking solution at a competitive price.

## Your challenges

- Finding a cost-effective marking solution that can evolve with your capacity needs
- Picking equipment is easy to install, use and maintain on your own
- Ensuring quality codes always, even after long storage periods

## Our solution

Designed for low to medium duty applications, the 9330's unique flexibility can easily handle evolving printing needs and ensure quality coding for more than 8,000 hours of production\*.

## Key benefits

- Its modular **Intelli'Swap** design makes changing the all-in-one M6' ink circuit so easy it can be done in under 6 minutes.
- The specially developed **Intelli'Ink** portfolio ensures optimal coder performance and flexibility when coding different package materials.
- Its automatic cleaning system coupled with its **Intelli'Jet** technology provides clean, hassle-free start-ups and quality codes, every time.

# Mark your future with quality coding, always. The versatile inkjet that grows with your company

### Easy operation

- **Easy to install**  
Put it anywhere you need, thanks to its robust IP55 fully stainless steel design.
- **Easy to start up**  
Automatic printhead cleaning system makes start-ups simple and quick. Just plug it in and start printing, even after weeks of storage.
- **Easy to use**  
Smart consumable system requires no set-up and prevents costly cartridge-related operator mistakes.
- **Easy to maintain**  
M6' ink circuit can be changed in less than 6 minutes without spillage or waste.

### Cost-efficient, best-in-class performance

- **The M6', a smart all-in-one ink circuit, runs for over 8,000 hours\***  
No extra maintenance needed.
- **Consistent code quality, regardless of environmental conditions**  
Intelli'Jet technology ensures quality codes in many fonts, several code types (including 2D), every time.
- **Keeps TCO low**  
Additive consumption cut by up to 50%\*\*, thanks to latest generation hydraulic system.
- **MEK-free ink offer eliminates paperwork hassle related to consumable importing**  
Its standard-priced MEK-free ink facilitates supply, compliance and safety related issues.

### Long-term coding solution

- **Adjusts to your changing packaging types**  
Whatever packaging type you need to code now or in the future, this coder can do it: Plastics, cardboard, metal, foil, paper, glass etc. It even offers a competitively priced MEK-free solution.
- **Extended connectivity capacity**  
Easily links to the market-leading CoLOS® information management system so you can manage one or more coding devices through a single computer.
- **Code with CONFIDENCE™**  
Ensure excellent performance and peace of mind with our array of genuine Markem-Imaje after-sales services. Offering includes: spare part kits, consumables solutions and service packages including start-up packages, extended warranty contracts, service exchange programs and all-inclusive agreements.

\*Recommended preventive maintenance procedure: 8,000 hours \*\*Compared to competitor models in the same category operating at 20 °C
